Revolutionize Your Health

Why Personalized Care, Why Now?

Simply put, the current US Healthcare model is broken. Today's Healthcare system focuses on disease management rather than wellness management. Decreased payments for medical services and mounting paperwork are keeping quality physicians from spending enough time with patients. Primary care medicine is no longer based on the one-on-one relationship between physician and patient, but has devolved into an impersonal system in which patients are seen by anonymous medical providers.

Therefore, patients are taking a serious interest in proactively managing their own health by changing their focus from visiting the doctor only when they are ill, to working with their doctor to stay healthy.

Dr. Lemire

is committed to each and every one of his members.

Dr. Lemire received his undergraduate degree from the University of Massachusetts, Amherst, Massachusetts, and his medical degree from Tulane University School of Medicine in New Orleans, Louisiana.

He completed his residency in Family Practice at St. Mary's Hospital in Grand Rapids Michigan.

Dr. Lemire is the Founder and Medical Director of the Connections Community Clinic for the Homeless and Indigent, and has served on the Medical Board of Advisors for Xymogen Nutraceuticals. He authored, "Ultimate Guide for Natural Health in the 21st Century," and "Learn How the Top 20 Doctors of America Can Improve Your Health."

By limiting his panel to 300 members, Dr. Lemire will be able to partner with you to optimize your well-being.

As one of a few, rather than one of many, members will enjoy enhanced availability and services from Dr. Lemire.

This partnership will enable increased patient-doctor interaction, patient education and follow up.

By taking an active role in their healthcare, people may detect early signs of serious illness and improve overall well-being.
